

# Who we are:

The Isabel la Católica College is a public centre, belonging to the University of Granada, where students live and develop academic, cultural and sports activities during the academic year.

The College offers summer accommodation for university students and teachers, from June 27th to September 7th.

We are located in the heart of the historic campus of the University of Granada, well connected with all the university schools, and 5 minutes walking from downtown, where historic buildings and the commercial area are located. The railway station, metro and city bus stops, are 2-5 minutes walking. Bus station is a 10 minutes' travel in metro.

It is an ideal academic place both, for those who are visiting or staying in Granada university, and also for those students, including Erasmus and other university exchange programs, looking for a first residence while they evaluate other possibilities for living next academic year.
